CYLINDERS SIZE CALCULATION

Over all Cylinder Length,

L = D + (2 * B)

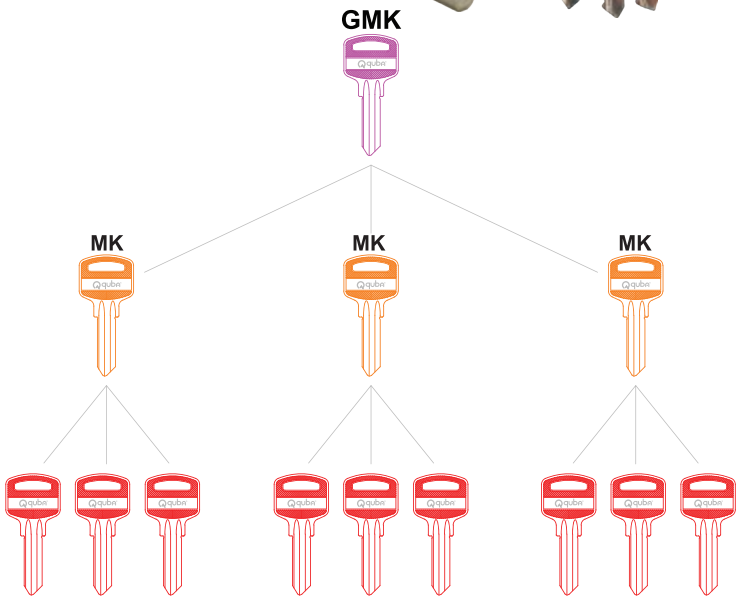

CAUTION:

Always check the mortise lock is fitted in the middle of the door, if not an offset cylinder is required.
For security reasons, it's best where possible to have the Euro cylinder finish flush (flat) with the edge of the back plates fitted to the doors.
Cylinders that stick out past back plates are much more vulnerable to attacks as they can more easily be hammered, twisted or cut during an attack.

MASTER KEY SYSTEM
